, and dickwad i should start by saying that this update has been a crazy journey, and im glad it is finally done. but now, im kind of having second thoughts. in my haste to get it done and release it, i made a mistake. it was a huge mistake, and i am embarrassed of it. so now, i will spend time being very kind to my self, and redo the update. its really rough but its the best thing i can do for myself right now. i hope you enjoy this iteration. the only thing that i can do is make it better, so take it or leave it every thing in the story is unchanged, except for you can select your dickwad now, and every cockwad in the game that you want, so you can be the god of sexploitation once again. just make sure to write the pepe's you use "the king" or something oh man, this update was a lot of work. i still want to put the more important images up, and i want to add more to the story, i think i may add the quest for the mead box, or something to make you think a little more about how things are connected. i want to write a short story about what happens after the first quest. i have some ideas about what that quest should be. but i dont want to be overwhelmed right now. i will add that at the end of this update. hey everyone! hope you enjoy this update. this was my first time using a christmas holiday for a game. so this has been a busy time. i hope you like it. i think i will do another update. i will have a short story at the end that will be a nice little ending to the story, because this has been a crazy time and it wont take much to do that. so when you download it, just be prepared for a nice little story at the end. it was real hard. i thought about making the quests for the bar and the harbor to be the first quest, but it wasnt. so here it is. i hope you enjoy it. its almost as if you are walking around in the real world, and almost as if you didnt actually make it back to the second world. but there is a giant story gap, and im sorry for that. but there is a giant story gap and i have no idea what is going to happen. and i have no idea when 82157476af
